

Basement rainwater storage tanks

Product advantages:

- black colour prevents algae
- very flexible due to possibility of adding extension tanks to storage requirements
- easy to install due to technical tank already equipped with overflow siphon and calmed inlet
- easy transportation due to handles

Basic tank (PE) equipped with:

- inspection manhole
- overflow siphon 100mm
- calmed inlet 70mm
- plug-in connections and push-in fittings
- flange connection at bottom for connecting tanks and draw water
- connection set (optional accessory)

Extension tank (PE) equipped with:

- inspection manhole
- flange connection at bottom for connecting tanks
- connection set (optional accessory)

Dimensions

Item No Basic tank	Item No Extension tank	Volume in liter	Height in mm	Width* in mm	Length in mm	Weight in kg	Manhole in mm
G 12110	G 12116	1000	1700	770	1055	42	400
G 12111	G 12117	1100	1400	720	1400	55	400
G 12112	G 12118	1500	1640	720	1560	73	400
G 12113	G 12119	2000	1690	720	2070	113	400
G 12114	G 12120	3000	1650	995	2230	168	400
G 12115	G 12121	4000	1950	995	2430	238	400

* The technical tank is 100mm wider due to overflow siphon.
